

3° INTERNATIONAL CONFERENCE
ROme, 14 - 15 May 2026

Department of Economics and Finance, University of Rome Tor Vergata
Department of Political Sciences and Department of Economics, Roma Tre University

PROGRAM 14-15 May 2026 Roma (Italy)

We are living in a difficult season with challenges that put the future of our civilization at risk. We are aware of how much economic thought, our elective field, plays a fundamental role in our culture and how much results and awareness are now mature in the research frontier that can and must push us towards a vision that overcomes barriers and reductionism, as has always been the case in the history of scientific progress. For this reason we believed that the time was ripe in which to propose together, colleagues from the world of Italian and international universities, a manifesto that illustrates the generative potential, satisfaction and richness of the meaning of life, of a sustainable response that can come from our discipline to today's challenges.

Thursday 14/5/26 – MORNING SESSION University of Roma Tor Vergata (Via Columbia)

Parallel (or invited) sessions

Presentation of the selected scientific papers - 8.30 – 09.45 | University of Roma Tor Vergata

Institutional greetings – 10.00 - 10.20 | University of Roma Tor Vergata

Nathan Leviaidi Ghiron, Rector in University of Roma Tor Vergata

Roberto Gualtieri, Mayor in City of Roma*

Plenary session - Discussion of Manifesto – 10.20 - 11.30 | University of Roma Tor Vergata

Presidents' Roundtable: Reframing Economics for a Renaissance

This session brings together the presidents of national and international economics societies to chart the future of our discipline in light of the Manifesto for an Economic Renaissance. Against a backdrop of climate and biodiversity crises, social fractures, geopolitical shocks, and rapid technological change, we ask how economics can move to better serve people and planet.

Chair: **Michele Cagiano**, Vice Director in Skytg24

Introduction:

Leonardo Becchetti, Professor of Political Economy in University of Roma Tor Vergata and Co-founder in NeXt Economia

Keynote speakers:

Raul Caruso, President in CESPIC and University Cattolica of Milano

Shared administration as a living application of participatory processes for welfare and economic policies

This session explores Italy’s “amministrazione condivisa” (share administration)—the co-programming and co-design (co-progettazione) frameworks between public authorities and Third-Sector organizations affirmed by the Italian Constitutional Court in 2020 as a distinct, collaboration-based pathway rather than public procurement.
